Module G winter 2021

1. (ii) What new situation coastal cities are facing.
2. We learn why they can't always prevent the city from being flooded.
3. (iii) The reason for the greater risk to coastal cities.
4. The cities will have to make their walls much higher and stronger.
5. (iv) What mistake coastal cities are making
6. (1) coastal cities build concrete barriers.  
(2) As a result, their beaches become narrower.  
(3) Consequently, the barriers withstand the full force of the ocean.
7. (iii) When they are frequently faced with the problem of flooding
